SQT555

Automatic Power-Failure Light

- Turns on automatically during power outages
- Automatically shuts off when power is restored
- Rechargeable battery for portable use
- Bright fluorescent light
- Up to 7-hour operating time¹

Make your home or business a safer place to be during a blackout with the Panasonic SQT555 Automatic Power-Failure Light. Just plug it into an AC outlet and it will automatically turn on its bright fluorescent light in the event of a power outage. Once the electricity is restored, the unit will shut off automatically. The SQT555 can also be used as a portable lighting source, indoors or outdoors², thanks to its rechargeable battery system and built-in carry handle.

6-Watt Fluorescent Lamp

While most flashlights can only provide spot lighting, the SQT555 Automatic Power-Failure Light's bright fluorescent lamp provides functional lighting. It's a great source of portable lighting for patios, camping and more².

Up to 7-Hour Operating Time

The rechargeable battery provides up to 7 hours of operating time when in LOW output mode and up to 3 hours of use in HIGH output mode.

Rechargeable Battery System

Simply plug the unit into the included AC adaptor and then into an AC outlet to recharge it. A full charge is reached in a minimum of 10 hours.

Battery Over/Discharge Protection

This feature prevents the battery from being overcharged or fully drained to help preserve the battery life.

Built-in Carry Handle

An ergonomically designed handle makes the SQT555 Automatic Power-Failure Light easy to carry.

Wall Mountable

The unit can be mounted to the wall so it can be easily accessed when needed.
